River group asks commissioners' help to stop city dam removal

By Lori Swarthout

Five members of the AuSable River Protection Association were present at the last meeting of the Crawford County Board of Commissioners, June 3. The association presented facts, figures, and photographs gathered by the group showing potential damage to wetlands if a dam is removed.

The association requested the commissioners assistance in fighting the possible removal of the Grayling Millpond Dam.

Commission chair Lee Riley indicated that road commission manager/engineer Richard Young is currently looking into what would have to be done to set up a special assessment district.

Commissioner Dennis Long indicated that on at least two occasions the board had protested the proposed removal of the dams. According to Long, the commissioners had sought the prosecuting attorney's advice on legal action which could be taken to stop dam removal. He agreed with the river association that the board has a responsibility for the eco-system created by the dams near the turn of the century.

The board decided to place prosecutor John Huss and engineer/manager Young on their next agenda

to provide legal options and progress update on the millpond issue.

In an interview with district fisheries biologist Dave Smith of the Department of Natural Resources Monday, June 8th, it was indicated that the millpond dam was not an immediate issue with the D.N.R. Smith said that unlike the Salling Dam which was extremely decrepit, necessitating its removal or repair, the millpond dam poses no imminent danger to people or the environment.

Smith did say that the D.N.R. is conducting water temperature studies and some cost/benefit analyses with regards to the millpond. Smith stated his personal belief that "the AuSable is a freeflowing, cold, precious river best known for trout and floating (canoeing, boating) and that barriers and impoundments don't fall into that area."

In other action, the board of commissioners will be setting up a public hearing upon the request of the housing commission in order to receive public input requesting variance of current zoning restrictions to allow erection of a pre-fabricated home for a low-income resident.

The sheriff has requested additional personnel to help with clerical and office management chores. He

was supported in his request by commissioner Bob Smock, who believes that the need for additional personnel is a very real one.

Finally, as requested by his father, Bill Borchers of the equalization

department, presented the flag received by his father for outstanding service to Disabled American Veterans to the county. Bob Smock will draft a resolution accepting this flag for approval by the board.

Bicyclist killed in hit and run accident

By Lori Swarthout

Thirty-five year old Gregory Kenwell of Maineville, Ohio, was arraigned on charges of O.U.I.L. causing death, in 83rd District Court Tuesday, June 9, in connection with a hit and run accident which occurred around 12:30 p.m. Saturday, June 6th.

According to the Crawford County Sheriff's Department, a 39-year-old Howell woman, Sarah Gahagan, was biking with her husband on McMasters Bridge Road, when she was struck by a north bound vehicle traveling at a high rate of speed.

The driver of the auto stopped

and was told to go for help by the victim's husband. At the next phone booth the driver found another citizen calling the accident in and continued traveling north. When Crawford County Deputies found the driver he attempted to evade arrest by hiding the vehicle. The local authorities say alcohol was a factor in this accident. Sarah was pronounced dead at the scene.

Crawford County Deputies received assistance from Gaylord and Houghton Lake State Police, Grayling City Police, Southbranch Township Fire Department Rescue, and North Flight E.M.S.

50th reunion attracts more than 500 CCC veterans to county

By Terry Wright

It was the time of the great depression. A time when money was scarce. Families lost their homes and businesses went under. Thousands of hungry young adults walked the streets, searching, day after day, and hoping that they would soon find work enough to keep them alive.

In 1932, Franklin D. Roosevelt's "New Deal" sounded mighty good to an unemployed nation so they sent him to the White House to see what he could do for them. Thirty-seven days after his inauguration, the Civilian Conservation Corps was born and for the next ten years, three and one half million young Americans served the CCCs, building their country back into the land of opportunity that they had previously known.

In Michigan, one hundred and twenty-five separate military style camps were constructed to house thousands of workers, and the work was hard. Building roads, bridges, landing fields, and fighting forest fires under the supervision of the Michigan Conservation Department, the men returned to their camps at night to strict military discipline.

The food was military style and the pay was meager. They worked for one dollar a day and at the end of the month, when they were paid, they had

to send twenty-five dollars back home to their families.

Rev. Bill Fraser of Grayling was one of the men who spent time in the CCCs and he was on hand at the North Higgins Lake State Park to commemorate the fiftieth anniversary

of the national CCC veterans organization. Bill is now the National CCC Chaplain, and a Regional Director of the National CCCs.

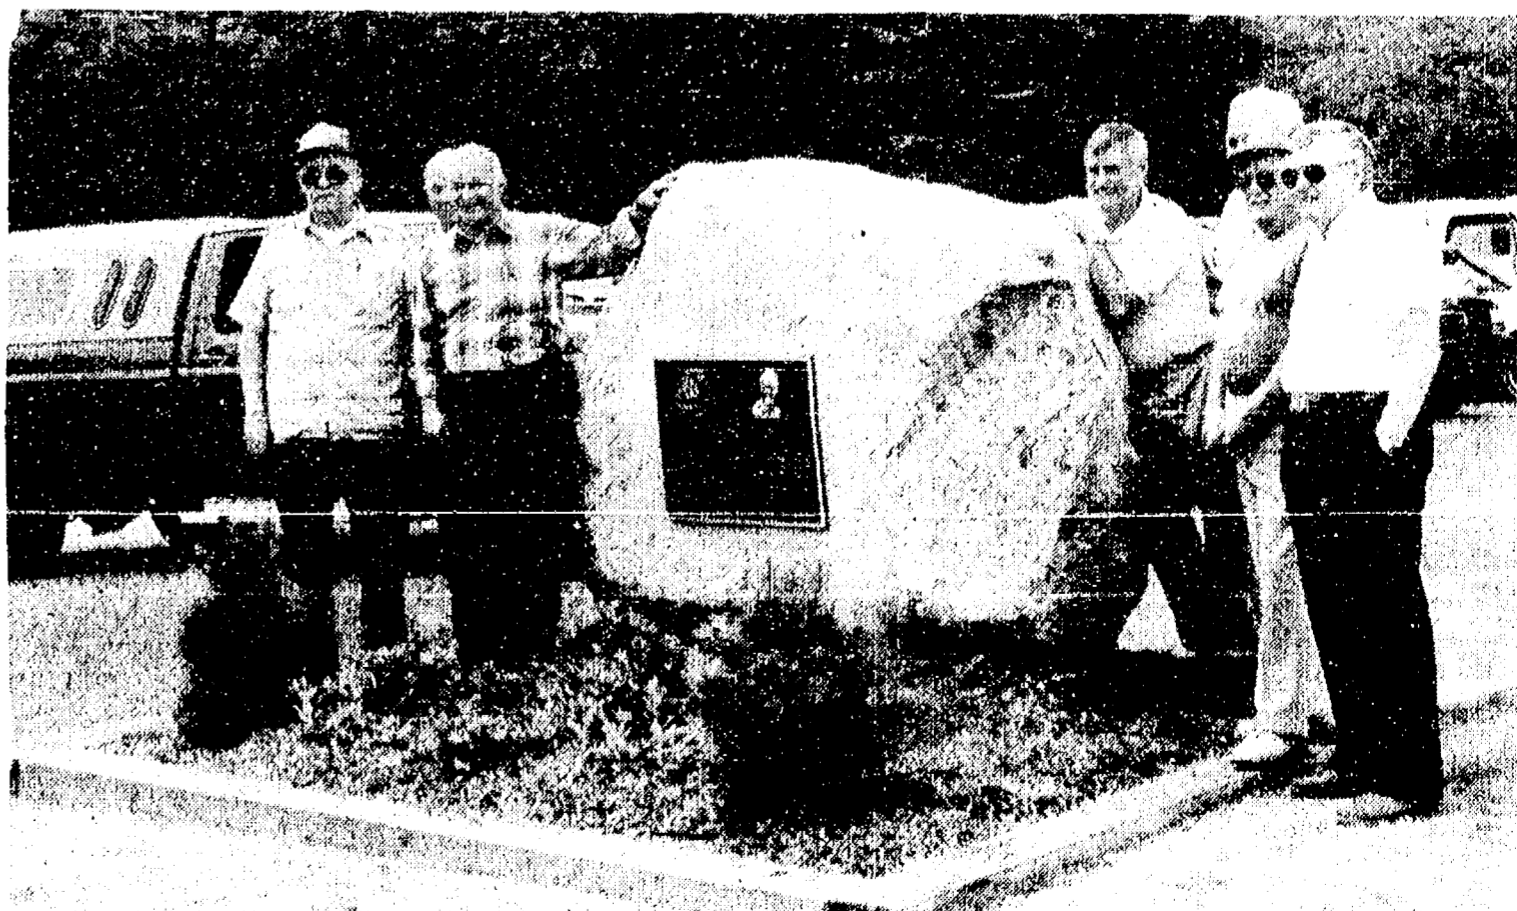

"After walking the streets of Flint wondering if I was going to have to steal my next meal, I enlisted in the

CCCs. You had to go on welfare to qualify for the CCCs, so I was on welfare for fifteen minutes. After that they sent me to Camp Jumbo, seventy-five miles west of Marquette. After being rejected for so many jobs, the

Graduation night marred by three auto accidents

By Lori Swarthout

Crawford County Deputies were busy into the late hours of high school graduation night. Called to the scene of a reported injury accident at approximately 2:30 a.m. Saturday, June 6th, deputies arrived to find two separate accidents.

The injury accident that was reported required North Flight Ambulance transport of the eighteen year old Frederic man to Grayling Mercy where he was treated and released. Deputies later took this young man into custody and charged him with operating under the influence of liquor (O.U.I.L.). He had left a graduation party prior to the

accident.

The other accident involved a driver leaving the scene. The vehicle was impounded by deputies and the accident remains under investigation.

Deputies responded to another accident later graduation morning, at 4:26 a.m., on North Down River Road just northeast of Wakeley Bridge Road. No one was injured in the roll-over accident; however, deputies did take a 27-year-old man into custody for O.U.I.L. This man had apparently attended the same graduation party connected with the earlier accidents, police said.

Letters To The Editor

Grayling Air Gunnery Range hosting Open House

This is for the people who love aircraft of all types. Having lived in the Gaylord area for over five years, it amazes me that so many people travel to various parts of the state to attend air shows. They watch warbirds of any type do fly-bys, simulated bombing and strafing runs, yet know nothing of what goes on right here in our own back yard.

Well, for those who have never been out to the Grayling Air Gunnery Range, (G.A.G.R.) let me tell you just what you are missing. The G.A.G.R. is without a doubt the best kept secret for those like myself who love flying. It is one of the things that make this country's military pilots the best in the world. The job training to a large part takes place right here in Waters. It is just ten miles south of Gaylord, and four miles east of Exit 270, off I-75 at the Waters exit. The Open House normally starts at 9 a.m. until 4 p.m. Plan to spend the entire day, you'll love it like the rest of us.

It is best to call the range and see what is happening during the day that you wish to visit. Better yet, be sure that you do not miss the open house that they have held annually since 1989. This year's date is June 27th. It should be another great performance if last year's show was any indication. The 1991 G.A.G.R. Community Appreciation Day was the best I have seen to date. You could really see the difference from pre-gulf war to post-gulf war.

So you want to know exactly what the heck they are doing out there? Picture this: Two A-10 Thunderbolts fly overhead at 4000 feet, and are given information about an imaginary enemy target within the confines of the G.A.G.R. valley. As the A-10s circle, they position themselves so they can start a 4000 foot bombing pass. Upon impact with the ground the bombs give off white smoke so the two control towers can give a score to the pilots after each pass. When the

bombs are spent, they then perform rocket and/or missile attacks. Then the real fun starts as they make their strafing runs with 30mm cannon fire. All runs with any of the weaponry are scored by the ground crews. Also in training are the forward air controllers (FACs) whose job it is to communicate with the aircraft and call them in on the proper targets.

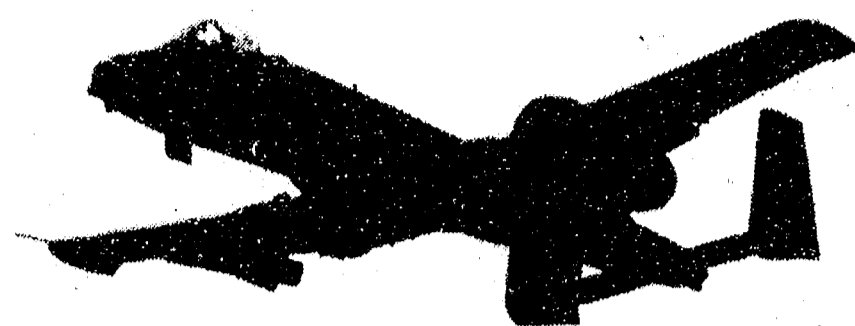

I've seen a good friend of mine stand there, his hands shaking with excitement. All he could say was "Wow!" You wonder what will ever top this part of the show, well that's just the start. Depending on what is planned for the day, you could still look forward to more A-10s, plus F-16s, A-7s, AH-1s, UH-1s, and so on. G.A.G.R. is used by both fixed wing and helicopter units.

Please be sure to bring ear protection. This is not normally required for the bomb drops. I've not seen them drop high explosive bombs, but is always a good idea around machine and Gatling gun fire.

us for so many years; especially for the training and protection that brought back so many of our sons and daughters from the Gulf War. My son, Jay, spent six months in the gulf with his National Guard unit (460th supply & service out of Midland). The unit was very happy to see those A-10s and F-16s overhead and know that those pilots were there to help protect our ground troops.

It is imperative that we maintain a strong force in reserve and supply them with the best equipment and training this country can offer. They must have the area and supervision so that they can correct mistakes in practice so that mistakes do not occur when lives are at risk in actual combat.

See you at the show!

WHAT WE NEED TO DO IS GET RID OF ALL THESE MILLIONAIRE POLITICIANS, THAT'S WHAT - I'LL BET THIS H. ROSS PEROT FELLOW ISN'T SOME "MILLIONAIRE POLITICIAN," IS HE?

NOPE, HE'S GOING TO BE A BILLIONAIRE POLITICIAN.

Let's Talk About It

By Joe Murphy

War produces many unsung heroes. One was the Captain of the hospital ship the U.S.S. Mercy. After W.W.II ended he sailed into Manila and was ordered to transport Japanese prisoners of war back to Japan. He knew that many American wounded were being treated in make do medical facilities in the Philippines. At the risk of his naval career, he refused that order and stated his ship was going to transport American wounded back home. But he was also wise enough to let Walter Winchill, who was the premier news man on radio in that day, know what he was doing. Even Gen. MacArthur had to back down in the face of public outrage if that order was not withdrawn. No doubt that Captain by now has passed on to his reward. But as I say, this man who defied the powers that be was a man of great courage and conviction and of such heroes are made. I have been unable to find out that Captain's name and if any of my readers served on the Mercy at that time, I would sure appreciate a call.

These long evenings remind me of those long summer evenings when I was a boy when just about every kid in town would gather together to play until dark. If we could patch up an old ball and find a bat or two we would play baseball. Two of the better players, such as Johnny Harner and Bennie Allen, would be picked to choose their teams. They, of course, would pick the better players for their team first and when it got

down to the tag end, one or the other would be stuck with me. It was still a lot of fun even if catching the ball with no glove would sure sting your hand, especially if you were dumb enough to grab a hot line drive.

Other evenings it might be cops and robbers, or cowboys and Indians. We could always seem to come up with a lot of fun even though it didn't cost a cent. If it had been a hot day we might make a trip down to Camel Lake for a little swimming, and no one was bothered that we didn't have a swimming suit, our birthday suits were just fine. Another nice thing I remember of my boyhood days was that we didn't have to destroy anything to have fun. Also when we played ball there might be kids eight or nine playing with kids sixteen or seventeen years of age. We didn't have enough kids in town to segregate by age or groups as they do now.

On the summer Sunday afternoons back in the thirties, there always seemed to be a game between the Frederic men's team and a team from one of the C.C.C. camps. I can remember Kendal Welch when he laid the wood to the ball, he could send one back into the woods at the end of the field. They used to have some real good games and just about everyone in town came to cheer the local boys.

Murphy, Dan: Real odd couple

AMERICAN SOCIETY SOMETIMES finds strange ways to get at fundamental social problems.

A case in point centers on Dan Quayle and Murphy Brown, an odd couple if ever there was one.

Murphy Brown is a fictional television newscaster who's the focus of a top TV comedy show.

Dan Quayle, of course, is vice president of the United States.

The theme of the entire season on the Murphy Brown TV show has been Murphy's ups and downs as an unmarried but pregnant career woman. The show has handled her plight with humor, sympathy, some philosophy, and generally good taste.

Mr. Quayle, in a recent speech keyed to the Los Angeles riots, decried the breakdown of the American family and general slippage of the moral tenor of this country.

In almost a throwaway line, Mr. Quayle pointed to Murphy Brown, and suggested that society should not be glorifying the state of unmarried motherhood.

THE RUSH TO PODIUM and word processor by critics and columnists was deafening. Everyone has an opinion. Most of the pundits condemned what one New York Times writer described as "Dan Quayle's attempt to turn a television

sitcom into a morality play."

Other critics had a variety of points:

- Doesn't Mr. Quayle realize that Murphy Brown is only fiction, some asked; people don't mix up a television show with real life, and Mr. Quayle should not do so either.
- Others, elevating Ms. Brown to the status of exemplar of all womankind, seemed to consider any word against Murphy Brown as an assault on working women, motherhood, and all females everywhere.
- Still others were incensed that Mr. Quayle seemed to blame poor Murphy Brown for the Los Angeles riots.

THERE IS, IT seems to me, some merit in Mr. Quayle's concerns, even if his choice of personification is questionable.

Indeed, there has been a breakdown in family structure, and a loosening of morals, with television portrayals prominent in the forefront.

Who believes television? Almost everyone who watches it, to one degree or another, is influenced.

But the Murphy defenders have some merit too. Why crucify a single mother just because she's single? Ms. Brown's character has made the best of what the show continually portrayed as a delicate and trying situation. As noted earlier, the fictional pregnancy was handled with generally good taste.

The uproar continues, and likely will for some time. To someone's

credit, Candice Bergen, who portrays Murphy Brown, has not been thrust into the controversy, which thus has avoided the pitfall of mixing fiction with reality.

AS THE CRY SOUNDS, the money handlers at CBS, which carried the show, rub their hands with glee, foreseeing huge ratings—which translate into large sponsorship fees — for the fall season.

"There's no question Murphy Brown will be heavily promoted for the fall," said George Schweitzer, a CBS marketing bigwig, in the New York Times article.

"It is a flagship show that has helped define what CBS is."

CBS, of course, "is" much more than Murphy Brown. It also "is" Dan Rather and the evening news, Sixty Minutes and its commentators, and a whole worldwide stable of reporters, analysts, and commentators.

Hummmmm.

You don't suppose that the commentating side of CBS would ever do anything to promote a public controversy so the entertainment side of the business would get more viewers, and then they could

Naaaawwww. That just wouldn't happen. Would it?

Bonamie, Lochner named 1st Team All League

Grayling High School varsity baseball team members Eric Bonamie (senior) and Andy Lochner (junior) were named to the All-Division Team. Senior Mark Brannan and junior Mitch McMillan received Honorable Mention.

Coach Fred Wolcott also announced team awards at the annual picnic/awards ceremony last week.

Bonamie was named Most Valuable

Player; Lochner, 110% Award; junior Scott Garner, Most Improved Award; and junior Mike Kirmo, Tough To K Award.

Members of the 300 Club (players with batting averages of .300 and above) included: Bonamie (.391), Lochner (.385), McMillan (.350), Garner (.348) and senior Aaron Raymond (.333).

Team captain was Brannan.

Statisticians were sophomores Kate Callewaert and Lisa Richie. Manager was sophomore Tim O'Brien.

The Vikings finished the season with an 11-9 record (3-5 in the division). "They were a good bunch of coachable kids who wanted to learn," said Wolcott. "Whenever you're at .500 or above, it's a good year. We made the districts for the first time in years, so the season was a success."

Grayling Senior League teams start season fast with four victories

The three Grayling Senior Little League teams (for boys 13-15 years old) almost won all of their games in the opening week of action. Grayling teams won four out of six games and the two losses were by one run.

GEORGIA-PACIFIC

Georgia-Pacific started out the year pounding Roscommon team #3 by a 20-1 score on Tuesday, June 2.

Ben Haskel, in his first time at bat, hit a triple knocking in two RBIs. Chip Waite and Marty Kroell added doubles, and Jason Hall, Corey Rock, Steve McEvers, Travis Weaver, Chris Kucharek, Corey Northrop, Miquel Perez, Nathan Weaver, Jeff Hale, Bobby Deman and Eddie Baynam added singles.

Chip Waite went five innings and struck out 11 for the win. Jason Hall had 6 steals and Corey Rock had 5.

On Thursday, June 4, Georgia-Pacific had a big lead in the second inning but lost 13-12 to Houghton Lake team #2.

Waite and Hall hit doubles and Kucharek, Northrop, T. Weaver, Haskel, Kroell, Rock, McEvers, N. Weaver, and Perez added singles.

Rock pitched seven innings and struck out seven. Rock also led the team with 5 steals.

The defensive play of the game was Hall tagging out a runner coming in on a squeeze play.

AMERICAN LEGION

The American Legion team beat Houghton Lake team #1 16-15 Wednesday, June 3, in an exciting extra inning game.

With the score tied at 14-14, Travis Eddy made the defensive play of the game. From his third base position, he picked up a loose ball at the pitcher's mound and threw out a runner at the plate. The score had just been tied on a runner scoring on a passed ball and the catcher's throw to the pitcher covering the plate rolled out to the pitcher's mound where Eddy picked it

up to stop the go-ahead run from scoring.

Tim Anderson hit a triple, Kevin Langseth added three singles, and Jason Hatfield had two singles. Justin Eddy, T. Eddy, Scott Hartman, Nick Schreiner, Sean Casey, Monte Malonen, and Mike Knight each had a single.

Hartman picked up the win throwing 5 innings and striking out 3. Hatfield started the game and threw 3 innings and struck out 4.

On Monday, June 1, Legion lost 14-13 to Roscommon team #1 in another close game. The tying run was tagged at the plate for the last out on a sacrifice fly attempt.

J. Eddy, T. Eddy, Hartman, Hatfield, Langseth, and Schreiner all had hits.

Travis Eddy pitched six innings and struck out 3.

KIWANIS

Kiwanis started out with a 8-4 win over Houghton Lake team #2 Tuesday, June 2, in a well-played, fast-paced game.

Andy Perrin and Shane Hinkle led the hitting. Perrin had three hits including a triple to the fence and two singles. Hinkle had a double, a single, and sacrifice fly. Steve Buygi and Jason Thompson added singles.

Chris Wolcott pitched seven innings for the win striking out 10.

Hinkle at short, Chris Jones at second, and Tony Dobry at first made the defensive play of the game turning a 6-4-3 double play to end an inning.

Kiwanis won 20-8 over Roscommon team #3 Thursday, June 4.

Wolcott and Buygi led the hitting. Wolcott had a triple and two singles, Buygi had three singles, Perrin added a triple, Andy Gilman had a triple, Isaac Tobin hit a double, and adding singles were Jason Lozon, Danny Bonamie, Jones, Dobry, and Thompson.

Hinkle picked up the win pitching 4

1/3 innings and striking out 4. Thompson relieved, pitching 2 2/3 innings and striking out 6.

Wolcott turned in the play of the game reaching a ball deep in the hole at shortstop and making a forceout at second.

For the second week of action these games were scheduled:

Monday, June 8 - Legion at Kiwanis

Tuesday, June 9 - Houghton Lake #1 at Georgia-Pacific

Wednesday, June 10 - Roscommon #3 at Legion and Kiwanis at Roscommon #2

Friday, June 12 - Georgia-Pacific at Roscommon #1 (This game was moved from Thursday, June 11, to Friday because of Roscommon's graduation on Thursday.)

Games coming up next week for the third week of the season:

CCC veterans

Continued from page 1
 CCCs gave us back our dignity and self esteem," he said.

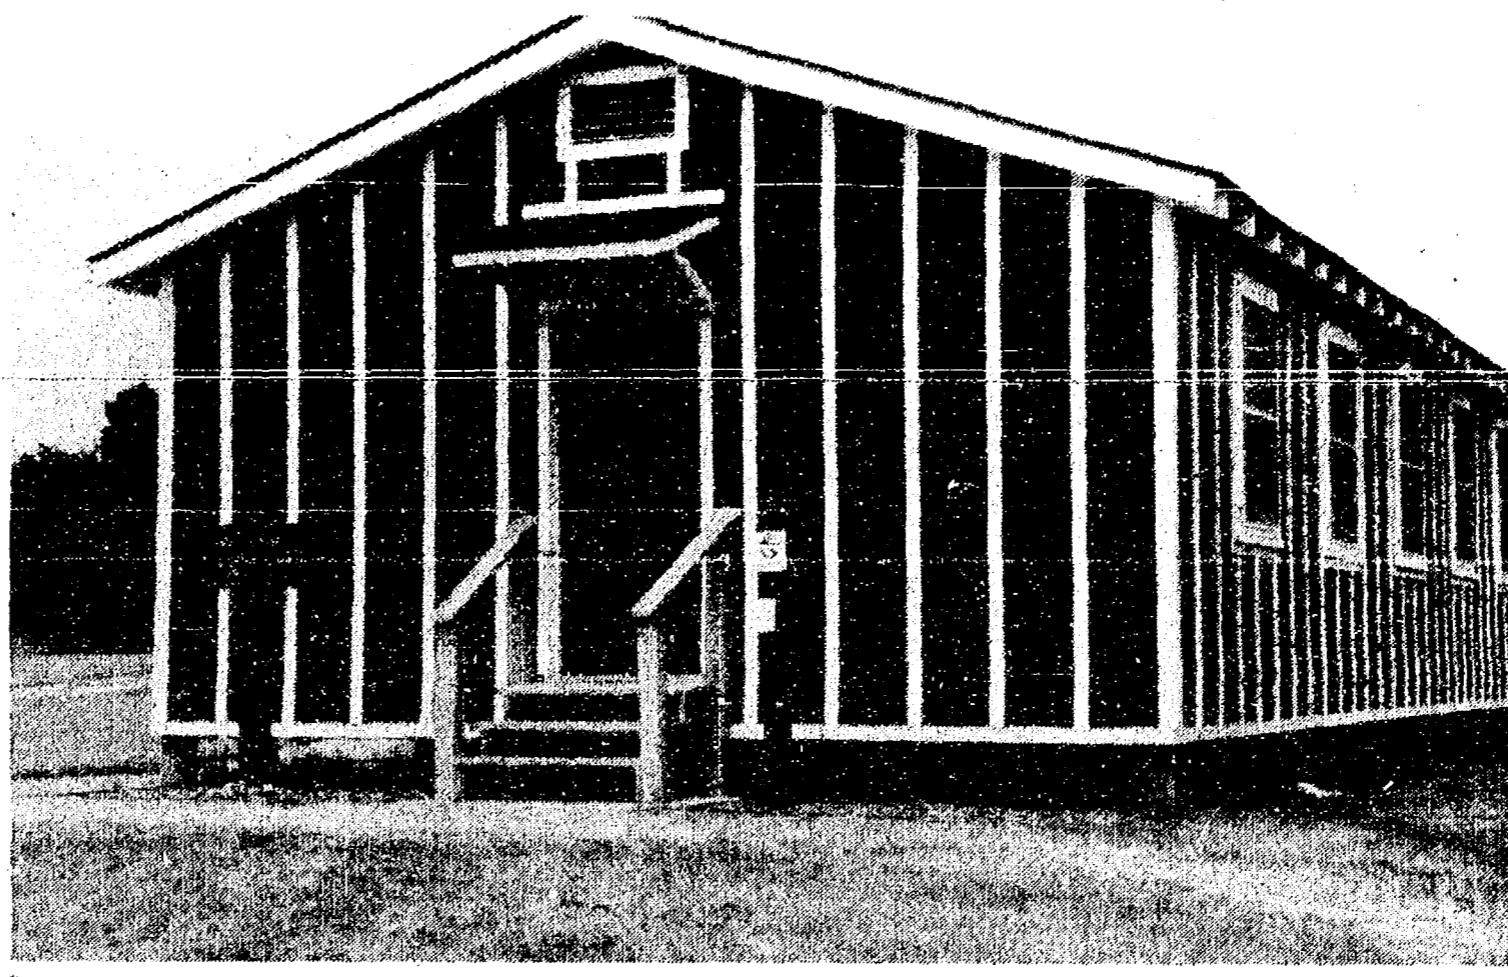

Apparently Bill is not the only one who looks back on his CCC time as being valuable. More than 500 CCC veterans turned out for the reunion. North Higgins Lake State Park (located in Crawford and Roscommon counties) is the site of Michigan's only CCC museum. Housed in a reconstructed barrack, the museum shows what life was like for the men with many displays and pictures of most of the former Michigan CCC camps.

In the early 1940s the CCC population dwindled as thousands of young men traded in their picks and shovels for rifles and went off to serve America in World War II. The CCC

program, however, continued on until last year when Governor Engler cut funding for the three remaining camps in Pontiac, Vanderbilt, and Alberta.

Recently they have housed the unfortunate youth of Michigan's sprawling urban decay and the program took pride in the fact that most CCC graduates never went back to the welfare rolls. In fact, Rev. Fraser stated that the program actually saved approximately twenty-four million dollars per year by providing those young people with the incentive and training to tackle life on their own without the help of welfare dollars.

The reunion participants were urged to write their congressmen demanding the reinstatement of the CCC program.

CENTER OF ATTENTION--Flora Bell Curren's family and friends gather around her (seated in middle) on June 4 for a celebration of her 109th birthday. (Linda Wright photo)

Mercy Manor resident turns 109

Family and friends of Flora Bell Curren helped celebrate her 109th birthday on Thursday, June 4, at Mercy Manor in Grayling. Mrs. Curren is one of the oldest residents in the State of Michigan.

Born June 4, 1883, near Wacousta in Clinton County, Flora is still bringing joy to those she loves. Her hearing and sight are limited, but Flora has a marvelous sense of humor and desire for living. She enjoys spending time with her daughters and other family members who visit her regularly at Mercy Manor, her home for the past four years.

Born the daughter of Charles and

Emma Monroe, she married Louie Curren on September 9, 1902, in Clinton County. To the couple were born five children: Dorothy Houlden, Glen Curren and Golden Stevens, all of Higgins Lake, Arlene Plankenhorn of Vicksburg, and Garnet Phillips of Lakeland, Florida.

Flora has ten grandchildren, 20

great-grandchildren, and 22-great-great grandchildren. Her favorite birthday card was one sent a few years ago from the White House. President Ronald Reagan and First Lady Nancy Reagan signed the birthday card which said, "May your cherished memories be a happy reflection of the fullness of your life."

CELEBRATE 50TH--Doris and William Dennison of Higgins Lake, celebrated their 50th anniversary in May with their children Mrs. Donald (Jane) Speer, Jr., of Saginaw, and William Dennison, of Higgins Lake. They also have four grandchildren Jennifer, Robert, Kathryn, and James. They moved to Higgins Lake in 1971 from Detroit and Doris retired from Camp Grayling in 1979.

St. John Pastor bids farewell to congregation

By Clara Sorenson

Pastor Robert Gordon bid farewell to the congregation at St. John after service on Sunday, June 7. He is leaving to accept pastoral responsibilities at Emmanuel Lutheran Church, Marion, Ohio. He came to Grayling in June, 1988, with his wife, Diane and sons, Christian and Kirkpatrick. In the past four years, many changes have come about.

Joe Kuck supervised a chicken barbeque for the potluck dinner served in the family room. Ingeborg Raas

and Melvin Moore were speakers for the congregation. A money tree was presented to Pastor as a token of thanks.

Pastor's parents, Geraldine and Douglas, Port Huron, and his grandmother, Mrs. Julia Probanz, Grayling, helped to make the occasion special.

Correction: A picture of Danish Women's Ladies Aid was published on May 20 and two names must be changed. Mrs. Torkild Boesen was standing next to Mrs. Peter Madsen.

It is time to "Shake Up" the Crawford County Board of Commissioners

This is one of the primary reasons I am running for election as District 4 Commissioner

THE TIME FOR CHANGE IS TUESDAY, AUGUST 4TH--PRIMARY ELECTION DATE

From an article in the Thursday, April 6, 1989, "Commissioners defeat waste hauling proposal," the following statements are excerpted as follows:

"The ordinance presented to the commission was defeated by a 4-3 vote, Joseph Callewaert, Bill Coy, Bob McLachlan, and Robert Nelson voted NO. Mary Harland, Jeannette Kitchen, and Bill Ruddy voted YES."

In the same article later (p.3), Mr. McLachlan is quoted as follows: "McLachlan said he would like to see the landfill used only by Crawford and Otsego counties. Of the 300 tons of garbage taken to the landfill every day during the summer months, only about 30 tons were from Crawford County."

"Counties from all over northern Michigan bring their garbage to Crawford County and forget it," stated McLachlan. "It is the residents of Crawford and Otsego counties and their children who will have to deal with the future contamination." McLachlan pointed out that test wells around the old landfill have begun to show some trace amounts of contamination and the present landfill has not been lined with vinyl. The fact that the landfill is located about one mile from the source of the AuSable River is also a concern of McLachlan.

In direct contrast to the statements made April 6, 1989, the following information is extracted from a "Document of Intent" with C.E.S. on December 18, 1991, when Mr. McLachlan was Chairman of the Crawford County Board of Commissioners. Mr. McLachlan signed this document on the behalf of Crawford County when he stated he was "called to Gaylord and thought other commissioners would be there." The "Document of Intent" included such binding restrictions on Crawford County present and future officials that are unbelievably rigid and not in the best interests of the county. For example:

1. Crawford County cannot compete with or be involved in any way in the creation or use of a second landfill within the county. The county, in fact, cannot even be involved in the use or location of transfer stations.
2. Crawford County is "encouraged" to request Crawford, Otsego, Cheboygan, Charlevoix, Roscommon, Antrim, Emmet, Presque Isle, Arenac, and Gladwin counties to haul their solid wastes to the Crawford-Otsego (Now City Management) landfill.
3. An article in the Crawford County Avalanche, dated April 30, 1992, has published a list that includes an additional 15 counties for a total number of 23 counties that C.E.S. is seeking reciprocal agreements with. The list is printed below. Note the total tonnage of solid waste (463, 130 TONS).

CITY ENVIRONMENTAL SERVICES, INC. OF WATERS COUNTIES C.E.S. IS SEEKING WASTE RECIPROCAL AGREEMENTS WITH

COUNTY	ANNUAL (TONS PER YEAR)	COUNTY	ANNUAL (TONS PER YEAR)
ALCONA	9,125	IOSCO	44,165
ALGER	-	KALKASKA	12,410
ALPENA	28,470	LUCE	2,327
ARENAC	19,710	MACKINAC	4,015
ANTRIM	5,475	MONTMORENCY	6,935
CHARLEVOIX	83,220	OGEMAW	23,360
CHEBOYGAN	25,185	OSCODA	6,205
CHIPPEWA	11,789	OTSEGO	19,929
CRAWFORD	16,315	PRESQUE ISLE	8,760
EMMET	25,000	ROSCOMMON	32,485
GLADWIN	29,200	SCHOOLCRAFT	6,839
GRAND TRAVERSE	54,020		

One of the above counties (Grand Traverse - 54,020 Tons) has already petitioned the 1992 Crawford County Board of Commissioners to use the landfill. The petition has not been accepted or refused as of this date.

NEW AND LATEST INFORMATION RE: MICHIGAN LANDFILLS

In a Detroit Free Press article, dated June 2, 1992, "COUNTIES CAN'T BAR INCOMING GARBAGE" the following is excerpted - "A Michigan law allowing counties to put their landfills off-limits to trash from other counties and states was ruled unconstitutional interference with interstate commerce Monday (June 1, 1992) by the U.S. Supreme Court." The ruling, coming on a 7-2 vote, could affect counties throughout Michigan and may force legislators to consider tinkering with the state's solid waste law, Act. 641." This means Crawford may expect the already designated 463,000+ tons of garbage per year, PLUS whatever amount that can be dumped here.

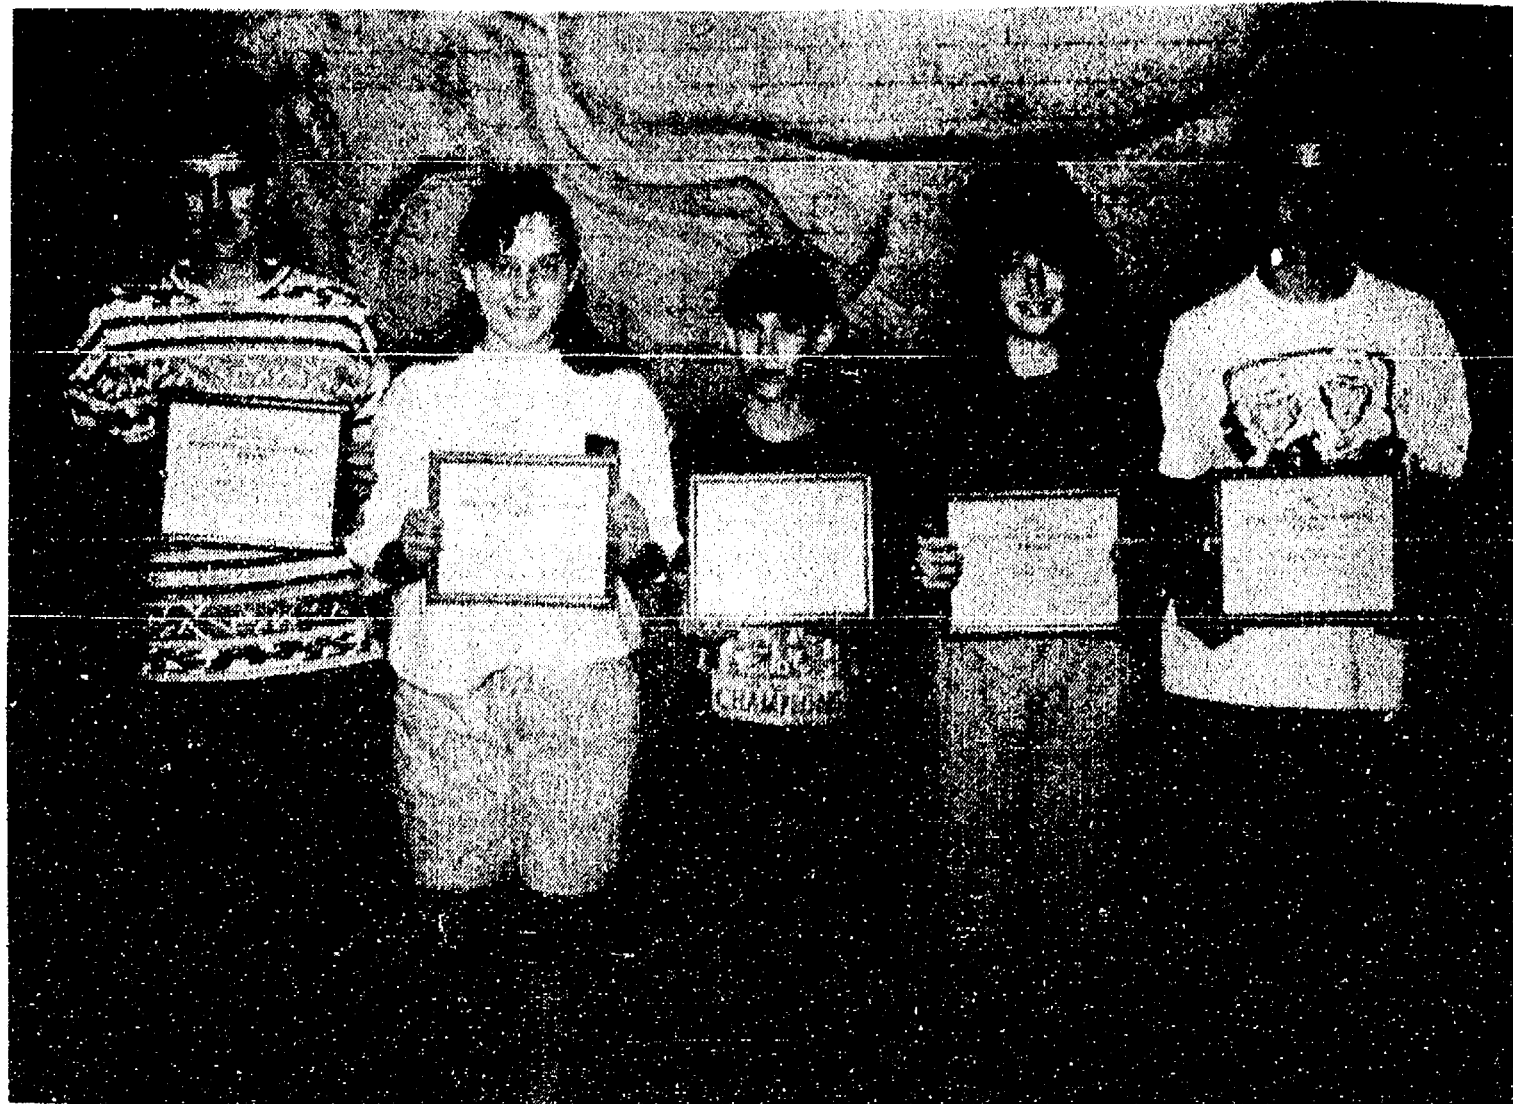

The grim picture presented in this article is only the "TIP OF THE ICEBERG" with respect to the motivations, judgment and integrity of many of the seven commissioners now in office.

You can help to "STOP THE BLEEDING" of the present and future of Crawford County by voting for responsible commissioners on Tuesday, August 4th Primary Election. The Primary Election this year is of particular importance in new District 4 (formerly District 7).

Your vote for **GARLAND (BUD) JOYCE**, a responsible, experienced person who can and will represent you and your interests without thought or expectations of personal gain will represent a first step in bringing Crawford County back into the realm of reality.

Mark the date on your calendar, **TUESDAY, AUGUST 4, 1992**. It will be one of the most important dates of this year.

(This ad, and all ads for the election of **Garland (Bud) Joyce** for Commissioner, District 4, are paid for by the candidate. No donations are expected or accepted, thank you.)

TOP S.A.T. SCORES--Aaron Westervelt (8th grade) Meaghan Gosling (7), Sean Casey (8), Bridget Black (8), and Andrew Ignash (8) were honored at a C.O.O.R. Intermediate School District banquet for their high S.A.T. scores. These middle school students scored higher than the average college-bound senior in math or verbal skills.

The Patriots

The National Guard is training hard
Out there both day and night
For they have an important job to do
And they want to do it right

They train to fight with all their might
To defend our freedom and liberty
From those who would enslave us
And destroy the land of the free

They are special patriots
Of which our nation can be proud
For their love of flag and country
Puts them head and shoulders above the crowd

They train for war in times of peace
To be prepared if duty calls
Knowing it is because a country is prepared for war
That the march of an aggressor stalls

They also serve in times of peace
In times of fire, flood, or storm
The National Guard will be there ready
To keep its victims fed and warm

They are here to work and not to shirk
If they are a little noisy please forgive
For training means survival
And each of them hopes to live

So why not extend the hand of friendship
To those troops training so hard
For they serve both us and our country
Those patriots of the National Guard

Fetal Tissue Controversy

Fetal tissue transplants are fueling a political controversy in Washington. Under normal circumstances most of us would view such medical procedures and research in the same acceptable light as donor transplants. However, the real moral issue is how the fetal tissue will eventually be acquired, and not the human benefits it can produce.

Right-to-life activist Bernard Nathanson, (a converted abortionist), described in the March 28, 1992, issue of *World* magazine how such fetal tissue is now acquired in Sweden: "In order to get fresh brain tissue (for Parkinson's patients), it is necessary to get a fetus 11 or 12 weeks along in a pregnancy. The abortionist must get the fetal head down deep into the pelvis against the cervix (the neck of the womb), open the womb and rupture the bag of waters, then cut a hole in the fetus' skull and put in a suction

apparatus and suck out the brain tissue—just suck it out. And that way you get living, fresh brain tissue. Then you proceed to do the abortion to destroy the baby or what's left of it."

Dr. Nathanson goes on to describe acquiring of pancreatic tissue for diabetics: "If you are dealing with pancreatic tissue for adult diabetics, the situation is different. There, you need tissue from babies between roughly four to seven months. In that instance, the abortionist must take the baby from the women, but not kill it in the process, because the tissue has to be fresh and alive." Following induced birth or caesarean section, the doctor, without anesthesia, cuts open the baby's abdomen and extracts the pancreas. It is then chopped up and injected into the diabetic. The baby is then killed.

No wonder Dr. Nathanson says of such procedures, "It betrays a utilitarian attitude toward fellow human beings worthy of Dracula... A civilization that accepts the principle of murder in order to feed off the

victim's life has lost any claim to be a civilization. It has descended into cannibalism."

Some think that could never happen in America! We gave public warning 20 years ago in the *Avalanche* that legalized abortion would progressively lead to worse horrors. Our nation has become desensitized through the murder of millions of babies. We are gradually becoming like the pagans who sacrificed their children to Molech. "And thou shalt not let any of thy seed pass through [the fire] to Molech, neither shall thou profane the name of thy God: I [am] the LORD." (LEV 18:21).

Golf Scramble to help John Sullivan family

The Fourth Annual Sullivan Scramble, a golf outing to raise money for John Sullivan, was held Monday, June 8, at Swan Valley and Crooked Creek golf courses in Saginaw. Sullivan was struck by lightning in 1985. He is the son of Marcia and Dick Sullivan and the grandson of Doris and the late A.J. Sorenson of Grayling.

The golf tournaments raised money to help with therapy, such as bio-feed-back computers, for John.

John has made a lot of progress since the lightning accident. He is able to move his legs in command to a certain extent and his right hand has some volitional movement. He also has a social smile as he fixes and follows with his eyes.

The Grayling community has helped in the past with fundraisers for John Sullivan. Anyone wishing to contribute can send donations to Sullivan Trust-St. Elizabeth, care of Pat Flynn, 4906 Audubon Drive, Saginaw, MI 48603.

YOUTH CANOE RACES--Barb Harmer, of the Grayling Booster Club, presents a \$250 donation to Monica Ashton, of the Spike's Challenge Committee. Spike's and the Booster Club are co-sponsoring youth canoe races Saturday, July 4th, on the pond in the city park. Entry forms for boys and girls ages 10-17 are available at Mac's Drugs or the *Avalanche* office. There are no entry fees. Canoes, paddles, and life jackets will be supplied. (Linda Wright photo)

"WE NEED THE RAIN..."

It was a gray afternoon as five year old Lisa pressed her nose against the windowpane, gloomily watching as the rain continued to fall... and fall... and fall. Lisa sighed, "Dad, I wish the rain would just go away, so I can go outside and play." "But sweetheart," replied Lisa's father, "We need the rain so that the flowers and the trees can grow."

Perhaps we do need the "rain"... the gray times in our lives... for if we have trust in the Creator of all things, we realize that when the rain stops and the sun breaks through the clouds, we, too, shall have grown stronger as our soul blossoms with our faith in God.

Though our faith is strong, being human, we may, at times, need temporary respite from the storm. Seek shelter in the house of the Lord, as His house is "founded upon the rock". (Matt. 7:25) We need not fear the rain.
